

## **Health & Social Care**

### **Introductory Task for H&SC**

Research 5 to 10 articles/news items relating to health and social care within the last six months. For EACH of your selected items you will need to:

1. State the date and source (where you got it from e.g. newspaper, television programme, web article) of the information.
2. Write an outline/summary of the issue.
3. Try to explain the effects of the issue on the patients/service user, services involved and on the wider society.
4. Explain how YOU felt about the issue (say how you felt and why you think you felt this way).

You will have to choose ONE to present (3-5 minutes) in class within the first two weeks of the course...so be prepared.
