

Dear Parent/Carer

26th April 2017

CGP Science Key Stage 3 Revision guides

In preparation for end of year exams and ongoing progress tests in Year 7 and Year 8, we recommend that all students buy the following revision resource:

Key Stage Three Science Higher or Foundation Level – Study guide Includes a free online edition.

This book covers all topics that are in the specification for year 7 and year 8, and gives support with students leading into their GCSE years.

It is also very useful for revising for end of topic and end of year assessments.

The book covers topics in both the year 7 and year 8 syllabus, so is ideal for both year groups.

Students in year 7 working between a 1L and a 2M will require the foundation revision guide.
Students in year 7 working above a 2M will require the higher revision guide.

Students in year 8 working between a 1L and a 3L will require the foundation revision guide.
Students in year 8 working above a 3L will require the higher revision guide.

If in doubt, please speak to your child’s class teacher or Miss Schofield in Science.

The guide can be purchased on ParentPay, which will then be ordered into school, ready for your child to collect at the discounted price of £3.50 (RRP £4.95)

If you experience any difficulties obtaining this essential revision book, please contact Miss Schofield in Science.

Yours faithfully

**Miss Schofield
Acting Deputy Head of Science**
